

Digital Photography Rules

Copy these rules on a piece of paper, share with your parents and have them sign them.

1. All digital photograph students **MUST** wear an ID badge and lanyard when in the halls taking pictures for class or for a photo shoot.
2. Students must use care when handling cameras and computers.
3. All digital students must have their subjects sign and date a photo release form. It is a privilege to take a person's photo, not a right. Make sure that you have their permission, and that they know what you are planning to do with their photo.
4. Digital photography students will take only appropriate pictures in appropriate places. Failure to adhere to this rule is grounds for immediate removal from the class.

Photography

5. All digital students must share both cameras and computers.
